FINISHING

CO₂-laser engraving

With our CO₂ laser machines for wooden and bamboo surfaces we realise optic and haptic effects with impressive accuracy.

Laser engraving

For a precise, long-lasting labeling method with unmatched results we recommend the ND vanadate laser procedure, suitable for metal surfaces.

Embossing

Give your produkt a higher value with embossing.

Finishing starting from 100 pieces. Less orders according to prior agreement.

Offset printing

Photo-realistic offset printing pays off from 3000 pieces with four-colour printing and special colours such as Pantone.

Pad printing

This method provides supreme quality for mono-chrome printing.

Digital printing

Whether photographic picture or logotype, our printing machines finish nearly any product. Even white colour printings are easily feasible.

FINISHING

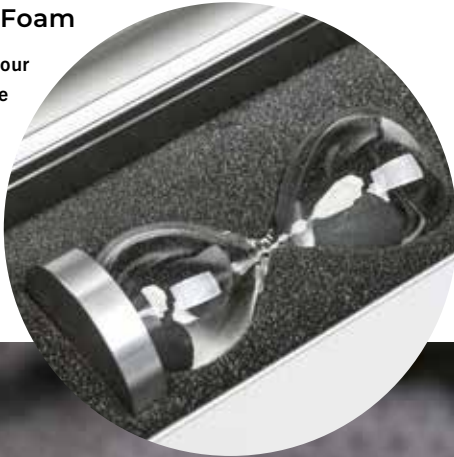

Product labeling

Cost-saving alternative way to printing for round and rectangular tins.

Foam

We produce and assemble your foam inlays with all imaginable shapes and options.

Finishing starting from 100 pieces. Less orders according to prior agreement.

SERVICE & EXPERTISE

Handling

Assembling, packaging, shipping: You decide on the extent of our services in an applicable way.

Finishing of additional articles

We refine your additional products. Benefit from our vast experience.

All from one source. Production, service, support.

Warehousing

Use our company-owned storehouse for your goods and ship it just in time with more favourable conditions.

Delivery times

Delivery without finishing 3–7 days, with finishing approx. 2–4 weeks after production approval. When available.
